(Small Roads)

ANNUAL REPORT

OF

Hahway Valley Company, Lessel Lenilevorth, New Greey

TO THE

Interstate Commerce Commission

FOR THE

YEAR ENDED DECEMBER 31, 1936

NOTICE

- 1. Two copies of this Form for Annual Report should be completed and returned by March 31, 1937, addressed to the Bureau of Suzant Interstate Commerce Commission, Washington, D. C. Attention is specially directed to these provisions of section 20 of the Interstate Commerce Act:
 - Sec. 20. That the Commission is hereby authorized to require annual reports from all common carriers subject to the provisions of this Act, and from the owners of all railroads engaged in interstate commerce as defined in this Act, to prescribe the manner in which such reports shall be made, and to require from such carriers specific answers to all questions upon which the Commission may need information. * * * Said detailed reports shall contain all the required statistics for the period of twelve months ending * * * on the thirty-first day of December in each year * * * and shall be made out under oath and filed with the Commission at its office in Washington within three months after the close of the year for which the report is made, unless additional time be granted in any case by the Commission; and if any carrier, person, or corporation subject to the provisions of this Act shall fail to make and file said annual reports within the time above specified, or within the time extended by the Commission, for making and filing the same, or shall fail to make specific answer to any question authorized by the provisions of this section within thirty days from the time it is lawfully required so to do, such party shall forfeit to the United States the sum of one hundred dollars for each and every day it shall continue to be in default with respect thereto.
- 2. Every inquiry contained in the accompanying forms for the annual report must be definitely answered. Where the word "none" and completely states the fact, it should be given as the answer to any particular inquiry or any particular portion of an inquiry. Every where they are specially authorized, cancelations, arbitrary check marks, and the like, must not be used either as partial or as the inquiries. If any inquiry based upon a preceding inquiry in this report is, because of the answer rendered to such preceding inquiry into the person or corporation in whose behalf the report is made, the words "not applicable" should be used in answer thereto a should be made to the precise portion of the report showing the facts which make the particular inquiry inapplicable.
- 3. Answers to the inquiries in the following forms must be complete. No answer will be accepted as satisfactory which attempts by the state of the paper or document of the paper of document of the paper of document of the paper of the paper of document of the paper of the paper of document of the paper of the paper
- 4. All entries should be made in a permanent black ink, except those of a contrary and unusual character, such as deficits, for example the made in permanent red ink. Money items (except averages) throughout this annual report form should be shown in units of the state of the second with footings.
- 5. Each respondent is requested to send in connection with its annual report to this Commission two copies of the latest annual report is such report is in print, unless copies thereof have already been submitted. If such report is not in print, state that fact is response to Inquiry No. 2811 on page 28 hereof.
- 6. Steam railway corporations, mainly distinguished as operating companies and lessor companies, are for the purpose of report to linearistate Commerce Commission divided into classes. An operating company is one whose officers direct the business of transportation are whose books contain operating as well as financial accounts; and, a lessor company, the property of which being leased to and operated by another company, is one that maintains a separate legal existence and keeps financial but not operating accounts. (In making reports, lessor company, as Annual Report Form E.)

Operating companies (including switching and terminal) are broadly classified, with respect to their operating revenues, according to the following general definitions:

Class I companies are those having annual operating revenues above \$1,000,000. (For this class, Annual Report Form A is provided.)

Class II companies are those having annual operating revenues from \$100,000 to \$1,000,000. (For this class, Annual Report Form A provided.)

Class III companies are those having annual operating revenues below \$100,000. (For this class, Annual Report Forms C and D are provided, the latter being used by switching and terminal companies.)

In applying this classification to any switching or terminal company which is operated as a joint facility of owning or tenant railways, the second the annual operating revenue and the annual joint facility rent income of that switching and terminal company shall be used in determination its class.

7. Throughout this report the respondent means the person or corporation in whose behalf the report is made; the year means the year coefficient the preceding year means the year immediately preceding that covered by the report; the beginning of the year means the beginning the first business day of the year in question; the close of the year means the close of the last business day of the year in question. In case the report is made for a shorter period than one year, the beginning of the year means the first day of the period, and the close of the year means the day of the period. All names of accounts are to be interpreted in accordance with the Uniform System of Accounts prescribed by the Intersection of the period of the year means the day of the period. Names of accounts not contained therein should be interpreted in accordance with current usage.

INTERSTATE COMMERCE COMMISSION Bureau of Statistics WASHINGTON

NOTICE

This copy of Annual Report Form C (Small Roads) should be sent to the Company's officer who is to fill out the form. Two copies are being mailed directly to the chief accounting officer of each company. The Interstate Commerce Commission does not have a sufficient supply of these forms to send more than three to each respondent, two directly and the one served with the order. The report is to be made in duplicate and one copy is for the file of the company.

Circular No. 20 - 1936 (Steam Railways - Class III)

INTERSTATE COMMERCE COMMISSION Bureau of Statistics WASHINGTON

November 20, 1936

TO THE COMPANY ADDRESSED:

There are being sent herewith two copies of Annual Report Form C (Small Roads) to be used by steam railway companies of Class III in the preparation and submission of their annual reports to the Interstate Commerce Commission for the year ending December 31, 1936. An acknowledgment of the receipt of these forms is required. These forms are in addition to the copy which has been served upon the Washington representative of your company as a part of the order of the Commission dated November 10, 1936, in the matter of annual reports from steam railway companies of Class III. A copy of that order is enclosed.

Heretofore three copies of the prescribed form have been sent direct to the chief accounting officers of the carriers. The present method of distribution is considered necessary in order that it may be clear that the form prescribed is a part of the order of the Commission requiring this annual report to be made. The Commission does not have a sufficient supply of blanks to send three copies of the form to each chief accounting officer in addition to the copy served with the order on the Washington representative. It will be necessary for the chief accounting officer to obtain the form from the Washington representative in order to retain a copy of the completed report in his file.

The particulars in which this report form differs from the corresponding form for the preceding year are noted on the "Special Notice" page. In this connection your special attention is directed to the prefatory "Notice" on inside of front cover, which sets forth certain provisions of the Interstate Commerce Act authorizing annual reports. The instructions relating to the different schedules should be carefully considered in order that all returns may be made in accordance with the requirements. Particular attention is called to the instructions at the top of page 29 in order to avoid the necessary inconvenience in returning reports for failure properly to complete the oath and supplemental oath.

The cooperation of accounting officers in the matter of the filing of 1936 reports not later than March 31, 1937 will be appreciated.

M. O. LORENZ,

Attachment

Director.

INTERSTATE COMMERCE COMMISSION

WASHINGTON

ORDER

At a Session of the INTERSTATE COMMERCE COMMISSION, Division 4, held at its office in Washington, D. C., on the 10th day of November, A. D., 1936.

In the Matter of Annual Reports from Steam Railway Companies of Class III.

The subject of the requirement of annual reports from steam railway companies being under consideration:

It is ordered, That all steam railway companies of Class III subject to the provisions of the Interstate Commerce Act be and they hereby are required to file an annual report for the year ending December 31, 1936, and for each succeeding year until further order, in accordance with Annual Report Form C (Small Roads), which is hereby approved and made a part of this order.

It is further ordered, That the annual report shall be filed, in duplicate, in the Bureau of Statistics, Interstate Commerce Commission, Washington, D. C., on or before March 31 of the year following the one to which it relates.

By the Commission, Division 4:

GEORGE B. McGINTY,

Secretary

(SEAL)

INTERSTATE COMMERCE COMMISSION

WASHINGTON

ORDER

At a Session of the INTERSTATE COMMERCE COMMISSION, Division 4, held at its office in Washington, D. C., on the 10th day of November, A. D., 1936.

In the Matter of Annual Reports from Steam Railway Companies of Class III.

The subject of the requirement of annual reports from steam railway companies being under consideration:

It is ordered, That all steam railway companies of Class III subject to the provisions of the Interstate Commerce Act be and they hereby are required to file an annual report for the year ending December 31, 1936, and for each succeeding year until further order, in accordance with Annual Report Form C (Small Roads), which is hereby approved and made a part of this order.

It is further ordered, That the annual report shall be filed, in duplicate, in the Bureau of Statistics, Interstate Commerce Commission, Washington, D. C., on or before March 31 of the year following the one to which it relates.

By the Commission, Division 4:

GEORGE B. McGINTY,

Secretary

(SEAL)

SPECIAL NOTICE

The attention of the respondent is directed below to certain particulars, if any, in which this report form differs from the corresponding form for the preceding year; but it should be understood that mention is not made of necessary substitutions of dates, or, in general, of such other things as simple modifications intended to make requirements clearer, other minor adjustments, and typographical corrections.

670. UNMATURED FUNDED DEBT

Give the particulars called for concerning the several unmatured funded debt liabilities of the respondent outstanding at the close of the year. Funded debt, as here used, comprises all obligations maturing later than two years after date of issue in accordance with the instructions in the Uniform System of Accounts for Steam Railway Corporations. Show each issue

separately and make all necessary explanations in footnotes. For the purposes of this report, securities are considered to be actually issued when sold to a bona fide purchaser for a valuable consideration, and such purchaser holds free from control by the respondent. All securities actually issued and not reacquired by or for the respondent are considered to be actually

outstanding. It should be noted that section 20a of the Interstate Commerce Act makes it unlawful for a carrier to issue or assume any securities, unless and until, and then only to the extent that, the Commission by order authorizes such issue or assumption.

690. CAPITAL STOCKS

Give the particulars called for concerning the several classes and issues of capital stocks of the respondent outstanding at the close of the year, and make all necessary explanations in footnotes. For definition of securities actually issued and actually outstanding see instructions for schedule 670. It should be noted that section 20a of the Interstate Commerce Act makes it unlawful for a carrier to issue or assume any securities, unless and until, and then only to the extent that, the Commission by order authorizes such issue or assumption.

801. PROPRIETARY COMPANIES

Give particulars called for regarding each inactive proprietary corporation of the respondent (i. e., one all of whose outstanding stocks or obligations are held by or for the respondent without any accounting to the said proprietary corporation). It may also include such line when the actual title to all of the outstanding stocks or obligations rests in a corporation controlled by or controlling the respondent; but in the case of any such inclusion, the facts of the relation to the respondent of the corporation holding the securities should be fully set forth in a footnote.

GENERAL INSTRUCTIONS CONCERNING RETURNS IN SCHEDULES NOS. 901, 902, AND 903

The schedules above indicated should include all securities of other corporations held by the respondent at the close of the year specifically as investments; they should exclude securities issued or assumed by the respondent, and securities in sinking and redemption funds, deposits in lieu of mortgaged property sold, special deposits, and insurance and other funds.

Securities held as investments should be classified as follows:

1. Securities of carriers affiliated with respondent. By carriers, as the term is here used, are meant companies owning or operating steam railways, facilities auxiliary thereto such as bridges, ferries, union depots and other terminal facilities, sleeping cars, parlor cars, dining cars, freight cars, express service and facilities, electric railways, steamboats and other marine transportation equipment, pipe lines (other than those for transportation of water), and other instrumentalities devoted to the transportation of persons or property for hire. Telegraph and telephone companies are not meant to be included. For the definition of affiliated companies, see the rules governing account No. 706, "Investments in affiliated companies", in the Uniform System of Accounts for Steam Railway Corporations.

2. Securities of noncarrier companies affiliated with respondent. The companies whose securities are classed in this group include all affiliated companies not provided for in the preceding group. Noncarrier companies should, for the purposes of these schedules, include telephone companies, telegraph companies, mining companies, manufacturing companies, hotel companies, etc. Purely "holding companies" are to be classed as noncarrier companies, even though the securities held by such companies are largely or

entirely those issued or assumed by carriers.

3. Securities of nonaffiliated companies. These include all se-

curities (not issued or assumed by the respondent) not provided for in the two foregoing groups. For the definition of nonaffiliated companies, see the rules governing account No. 707, "Other investments", in the Uniform System of Accounts for Steam Railway Corporations.

Each of the foregoing classes should be subdivided between pledged and unpledged. Under "pledged" should be included not only those actually deposited with some pledgee or other trustee, but also those held subject to the lien of a chattel mortgage or subject to any other restriction or condition which makes them unavailable for general corporate purposes. "Unpledged" should include all securities held by or for the respondent free from any lien or restriction.

In listing the securities composing the foregoing groups in the following schedules, each group should be subdivided as follows:

(A) Stocks:

Carrier corporations-active. Carrier corporations-inactive. Noncarrier corporations—active. Noncarrier corporations—inactive.

(B) Bonds: (Including U.S. Government bonds).

Notes:

(D) Miscellaneous securities:

The subclassification of classes (B), (C), and (D) should be the same as that provided for class (A).

By an active corporation is meant one which maintains an organization for operating property or administering its financial affairs. An inactive corporation is one which has been practically absorbed in a controlling corporation, and which neither operates property nor administers its financial affairs; if it maintains an organization it does so only for the purpose of complying with legal requirements and maintaining title to property or franchises.

In case any changes in holdings of securities or in book values thereof have been made during the year, a detailed statement

thereof should be given on page 10 or 28 of this form.

No entries should be made in these schedules for securities the book value of which is included in charges to "Investment in road and equipment", as shown under that caption in the General Balance Sheet, page 4, but a memorandum statement showing in detail such securities and their book values, and the road represented (together with mileage), should be given on page 7.

These schedules should not include any securities issued or assumed by the respondent, nor any held in sinking or other

special funds.

Classify the securities according to the classification given above, indicating the subclass by means of letters and figures in column (b); and indicate by means of an arbitrary mark in column (a) the obligation in support of which any security is pledged, mortgaged, or otherwise encumbered, giving names and other important particulars of such obligations in footnotes.

Entries in column (c) should show date of maturity of bonds

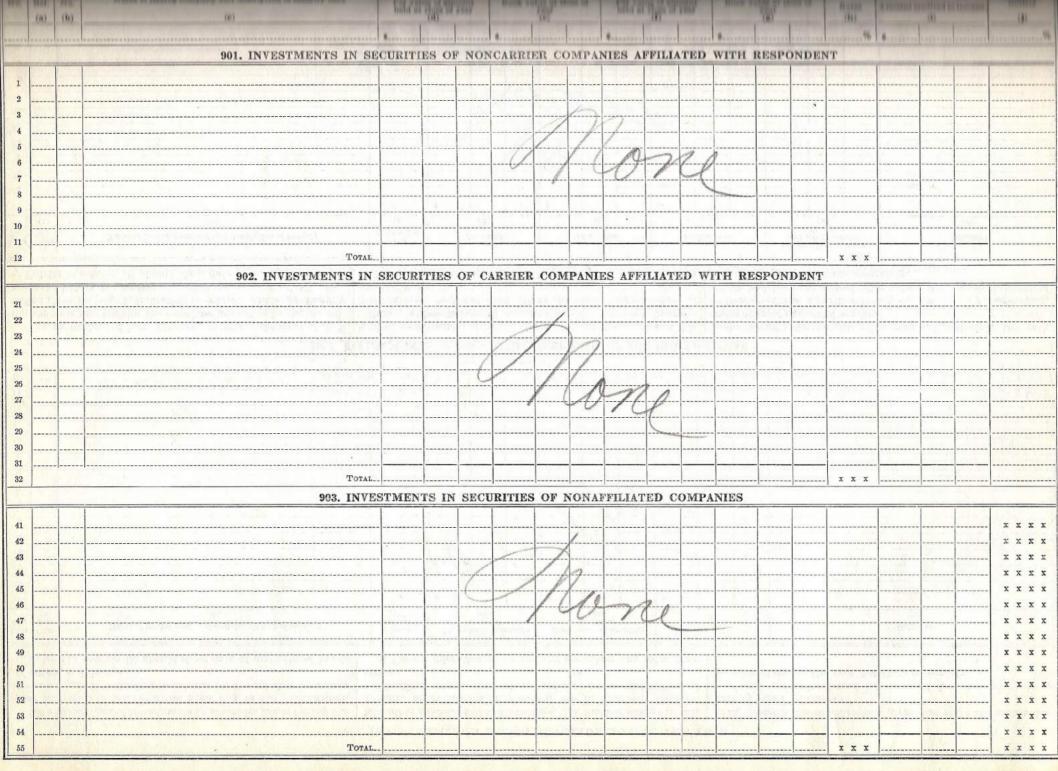

and other evidences of indebtedness.

In schedule No. 901 give particulars of investments in securities of noncarrier companies affiliated with respondent.

In schedule No. 902 give particulars of investments in securi-

ties of carrier companies affiliated with respondent.

In schedule No. 903 give particulars of respondent's invest-ments in securities of all corporations other than its affiliated companies.

1001. INVESTMENTS IN SECURITIES MADE DURING THE YEAR

Give particulars of investments in securities made during the year and classify the securities according to the classification given on page 8, indicating in column (a) the subclass by means of letters and figures.

Entries in column (b) should show date of maturity of bonds

and other evidences of indebtedness. In making entries in this column, abbreviations in common use in standard financial publications may be used where necessary on account of limited space.

If the consideration given for any securities was other than

cash, describe the consideration given and state the cash value thereof under "Remarks."

If any securities issued or assumed by respondent were reacquired during the year, list them separately.

1002. INVESTMENTS IN SECURITIES DISPOSED OF DURING THE YEAR

Give particulars of investments in securities disposed of during the year and classify the securities according to the classification given on page 8, indicating in column (a) the subclass by means of letters and figures.

Entries in column (b) should show date of maturity of bonds

and other evidences of indebtedness. In making entries in this column, abbreviations in common use in standard financial publications may be used where necessary on account of limited space.

If the consideration received for any securities was other than

cash, describe the consideration received and state the cash value thereof under "Remarks."

If any of the securities issued or assumed by respondent, which had been reacquired after actual issue, were disposed of during the year, list them separately.

1102. SECURITIES AND OTHER INTANGIBLES OWNED OR CONTROLLED THROUGH NONREPORTING CARRIER AND NONCARRIER SUBSIDIARIES

State whether or not the respondent at any time during the year indirectly owned or controlled any securities (including securities issued or assumed by respondent) or other intangible property through any subsidiary which does not report to the Commission; and if so, give, concerning all such securities

"Other investments", as defined in the Uniform System of Associate for Steam Rallway Corporations.

and other intangible property so held, all particulars called for hereunder. This schedule should include all securities or other intangible property owned or controlled by nonreporting companies shown in schedules 901 and 902, as well as those of any other organization or individual whose action respondent

is able to determine. State also (in a footnote) the names of the several subsidiaries in connection with the things owned or controlled through them. Entries in column (a) should be made in accordance with the classification shown on page 8.

1201. NONNEGOTIABLE DEBT TO AFFILIATED COMPANIES

Give full particulars of the respondent's nonnegotiable debt to affiliated companies, as defined in connection with account No. 757, "Nonnegotiable debt to affiliated companies", in the Uniform System of Accounts for Steam Railway Corporations. If any such debt is evidenced by notes, each note should be separately shown in column (a). Show, also, in a footnote, particulars of interest charged to cost of property.

1202. DEPRECIATION BASE—EQUIPMENT OWNED

Show the ledger value of all equipment owned, segregated between that which is owned and used, and that which is owned but leased to others. The totals of columns (b) and (c), and (q) and (r) should correspond with the carrier's investment in equipment as carried in the accounts, as of the beginning and close of the year, respectively. Include in column (b), and the various columns for equipment "owned and used", entries

applicable to equipment the depreciation charges for which are includible in the operating expense accounts of the accounting company. Include in column (c), and the various columns for equipment "leased to others", entries applicable to equipment the depreciation charges for which are not includible in the operating expense accounts of the owning company; the data included in these columns being merely for reconciliation pur-

poses, i. e., to produce a total which will correspond with the investment account. If the depreciation base is other than the ledger value a full explanation should be given, together with a statement by primary accounts reconciling the difference between the figures used as the depreciation base and those carried in the ledger as investment in equipment.

1302. DEPRECIATION RATES-EQUIPMENT USED

(OWNED OR LEASED FROM OTHERS)

win columns (b) and (d), lines 21 to 27, for each primary account, mosite rate used in computing the depreciation charges determaced and Operating Expenses for Steam Railroads as amended 1934; and on line 28 show the composite rate for all equipment ascertained by applying the primary account composite rates component rates upon which the primary account composite based, if the use of component rates has been authorized) to the value of the respective primary accounts as of December 31 and viding the total so computed by the total ledger value of the same date. If any changes in the composite rates bective during the year give full particulars.

2. Show in columns (c) and (e) for each primary account and for all equipment accounts, the ratio of the depreciation charges actually included in the accounts during the year to the average monthly ledger value of the property. Unless component rates have been used in computing the monthly depreciation charges, or there has been a change in the composite rates for the primary accounts during the year, the percentages for each primary account in columns (b) and (c), and (d) and (e), respectively, should be the same. The average monthly ledger value for computation of entries in columns (c) and (e) should be determined by adding the monthly ledger values to which the depreciation rates were applied and dividing the total by 12.

1401. DEPRECIATION RESERVE—EQUIPMENT OWNED

Give particulars of the credits and debits to account 776, "Accrued depreciation—Equipment", during the year. Show the amounts included in the depreciation reserve for equipment owned, segregated as between that which is used by the accounting company, the depreciation charges for which are includible in the operating expense accounts, and that which

is "leased to others", the depreciation charges for which are not includible in the operating expense accounts of the accounting company. If any entries are made for "Other credits" or "Other debits" state the facts occasioning such entries. A debit balance in columns (b), (c), (q), or (r) for any primary account should be shown in red. If there is any inconsistency

between the credits to this account and charges to corresponding accounts in operating expenses, or between the charges to this account and the credits to the investment accounts because of depreciation accrued on the property retired, full explanation thereof should be made.

2401. EMPLOYEES, SERVICE, AND COMPENSATION

Give particulars of the average number of employees of various classes in the service of the respondent, of service rendered by such employees, and of compensation paid therefor during the year. Employees are to be counted and classified and their service and compensation reported in accordance with the Commission's Rules Governing the Classification of Steam Railway Employees and Reports of their Service and Compensation, effective July 1, 1921, as amended by order effective January 1, 1933.

Averages called for in column (b) should be the middle-of-month counts.

Pensioners rendering no service are not to be included is any compensation paid them to be included because

If any of the general officers served without carried on the pay rolls of another company, those in a footnote.

2501. COMPENSATION OF OFFICERS, DIRECTORS, ETC.

we the name, position, salary, and other compensation, such as bonus, rission, gift, reward, or fee of each of its officers, directors, pensioners, or byees to whom the respondent paid \$10,000 or more during the year red by this report as compensation for current or past service over and encessary expenses incurred in discharge of duties. If more conventhis schedule may be filled out for a group of roads considered as one and shown only in the report of the principal road in the system, references thereto in the reports of the other roads. Any large compensation" should be explained in a footnote. If salary of

an individual was changed during the year, show salary before each change as well as at close of year. If an officer, director, etc., receives compensation from more than one railway, reference to this fact should be made if his aggregate compensation amounts to \$10,000 or more and the detail as to division of the salary should be stated. By salary (column c) is meant the annual rate at which an employee is paid, rather than the amount actually paid for a part of a year when the salary is changed. Also, when a 10 percent (or other percent) reduction is made, the net rate and not the basic rate should be shown.

2502. PAYMENTS FOR SERVICES NOT RENDERED BY EMPLOYEES

the form below give information concerning payments, fees, retainers, nissions, gifts, contributions, assessments, bonuses, pensions, subtions, allowance for expenses, or any form of payments amounting in ggregate to \$5,000 or more during the year to any corporation, instin, association, firm, partnership, committee, or any person (other one of respondent's employees covered in schedule 2501 in this al report) for services or as a donation.

be included are, among others, payments, directly or indirectly, for medical, engineering, advertising, valuation, accounting, statistical, cial, educational, entertainment, charitable, advisory, defensive, detecdevelopmental, research, appraisal, registration, purchasing, architecand hospital services; payments for expert testimony and for handling disputes; and payments for services of banks, bankers, trust coms, insurance companies, brokers, trustees, promoters, solicitors, atants, actuaries, investigators, inspectors, and efficiency engineers. Lents to the various railway associations should also be included. Enumeration of these kinds of payments should not be understood as sing other payments for services not excluded below.

To be excluded are: Rent of buildings or other property, taxes payable to the Federal, State, or local governments, payments for heat, light, power, telegraph, and telephone services, and payments to other carriers on the basis of lawful tariff charges or for the interchange of equipment between carriers, as well as other payments for services which both as to their nature and amount may reasonably be regarded as ordinarily connected with the routine operation, maintenance, or construction of a railroad, but any special and unusual payments for services should be reported.

If more convenient, this schedule may be filled out for a group of roads considered as one system and shown only in the report of the principal road in the system, with references thereto in the reports of the other roads.

If any doubt exists in the mind of the reporting officer as to the reportability of any type of payment, request should be made for a ruling before filing this report.

2602. REVENUE FREIGHT CARRIED DURING THE YEAR

Give the particulars called for concerning the commodities carried by the respondent during the year, the revenue from which is includible account No. 101, "Freight." In stating the number of tons received from connecting carriers, include all connecting carriers, whether rail or was and whether the freight is received directly or indirectly (as through elevators).

Particulars for items 50 to 54, inclusive, should include all traffic moved in lots of 10,000 pounds or more. Item 55 should include all traffic main lots of less than 10,000 pounds.

2701. DESCRIPTION OF EQUIPMENT

ticulars of each of the various classes of locomotive, car, and Include motor cars and trailers designed specially for use in service. If any "Other locomotives" are shown, give a brief in a footnote. Entries in column (h) should be in units of ends; e. g., if the tractive power is 30,600 pounds, enter 30.6, the number of tractive units and tenths.

Capacity of a freight car, column (i), means the number of tons of 2,000 pounds which the car is marked capable of safely carrying; in the case of tank cars, the capacity of which is designated in barrels, gallons, or other units of volume, the marked capacity should be reduced to capacity in weight of the commodity which the car is intended to carry customarily.

IMPORTANT CHANGES DURING THE YEAR

Hereunder state the following matters, numbering the statements in accordance with the inquiries, and if no changes of the character below indicated occurred during the year, state that fact. Changes in mileage should be stated to the nearest hundredth of a mile. If any changes reportable in this schedule occurred under authority granted by the Commission in certificates of convenience and necessity, issued under paragraphs (18) to (22) of section 1 of the Interstate Commerce Act or otherwise, specific reference to such authority should in each case be made by docket number or otherwise, as may be appropriate.

2801. All portions of road put in operation or abandoned, giving (a) termini, (b) length of road, and (c) dates of beginning operations or of abandonment.*

2802. All other important physical changes, including herein all new tracks built.*

2803. All leaseholds acquired or surrendered, giving (a) dates, (b) length of terms, (c) names of parties, (d) rents, and (e) other conditions.

2804. All agreements for trackage rights acquired or surrendered, giving (a) dates, (b) length of terms, (c) names of parties, (d) rents, and (e) other conditions.

2805. All consolidations, mergers, and reorganizations effected, giving particulars.

2806. All stocks issued, giving (a) purposes for which issued, (b) name of stocks and (c) amounts issued, and describing (d) the actual consideration realized, giving (e) amounts and (f) values; give similar information concerning all stocks retired (if any).

2807. All funded debt issued, giving (a) purposes for which issued, names of securities and (c) amounts issued, and describing (d) the acconsideration realized, giving (e) amounts and (f) values; also give particulars concerning any funded debt paid or otherwise retired, static (a) date acquired, (b) date retired or canceled, (c) par value of amount retired.

2808. All other important financial changes.

2809. All changes in and all additions to franchise rights, describing fully (a) the actual consideration given therefor, and stating (b) the parties from whom acquired; if no consideration was given, state that fact.

2810. In case the respondent has not yet begun operation, and no construction has been carried on during the year, state fully the reasons therefor.

2811. All additional matters of fact (not elsewhere provided for) which the respondent may desire to include in its report.

Miles of road constructed Miles of road abandoned

The item "Miles of road constructed" is intended to show the mileage of first main track laid to extend respondent's road, and should not include tracks relocated and tracks laid to shorten the distance between two points, without serving any new territory.

^{*} If returns under schedules 2801 and 2802 include any first main track owned by respondent representing new construction or permanent abandonment give the following particulars:

VERIFICATION

The foregoing report must be verified by the oath of the officer having control of the accounting of the respondent by the oath of the president or other chief officer of the respondent, unless the respondent states on the last preceding the
