Rahway Valley Railroad,
Kenilworth, N.J.~~

Gentlemen:-

Please note the attached letters from the New Jersey State Board of Public Utility Commissioners and the New Jersey State Safety Council, which are self explanatory.

This is a rather serious complaint and I want you to inform me, without undue delay, why our Westfield Avenue Grade Crossing in Roselle Park, N.J., was not properly protected on Tuesday evening, December 21st, 1965.

Am I to understand that you operate over this crossing without the benefit of any flag and/or lantern protection.//// ?????.

Very truly yours,

Geo A Clark
President & General Manager.
